Introducing the fresh collections

MASTERPIECE COLLECTION

HANDMADE TABLES
FOR ENDLESS DINING

MASTERPIECE A WORK OF OUTSTANDING ARTISTRY

Meet the new dining tables from the Masterpiece Collection. We combined the most user-friendly table leg with six different table tops, of which each model is available in two sizes.

Collection *by* DANSK
Home

TABLE TOPS

The table tops from the Masterpiece Collection have a solid appearance due to the 8 cm thickness. They are made of solid wood covered with recycled teakwood. Great to combine with furniture from our other collections such as Cosmo, Metropole and Odeon.

TABLE LEGS

All tables in the Masterpiece Collection have the same metal spider leg, adapted to the dimension and size of the table top. The design of the most user-friendly table base is extra special in this collection: it is tapered. This construction, which is difficult to make, gives the leg a slim effect. You can place a maximum amount of chairs around it, because a spider leg never gets in the way.

MINI
MASTERS

VIEW OUR MINI MASTERS

You can view this sample set in-store from the Masterpiece Collection. The set consists of: Minimasters (all table tops to scale) to show the different style tops available in the Masterpiece range.

MEET OUR RECTANGULAR MASTERS

DINING TABLE NEWTON

Solid beams are reused to construct dining table Newton. The worn wood is full of cracks and fractures and the short edges of table tops are left with a course finish. It sets of the beauty of the old wood.

DINING TABLE EINSTEIN

The chevron pattern placed towards the centre creates a graphic pattern on the table top of Einstein. The pattern is finished with a framework. Also available: dining table Einstein round.

DINING TABLE LINCOLN

We create a bold and robust design with solid timber. Its severity is lightened by the inlaid teak table top with neatly mitered corners.

**DINING TABLE
DARWIN OVAL**

An oval table gives you the opportunity to break through the straight lines that dominates almost every interior. The soft shapes give your interior a friendly character. The beautiful recycled teakwood has been laid in a straight pattern. Dining table Darwin is also available as a round table.
